## J. G. Galvin Says Property Is Good

Mr. J. G. Galvin, Manager of the Groundhog Basin Mining property, was a passenger south on Alki, bound for Seattle on a business trip. He expects to be away about three weeks. Before he left for the south Mr. Galvin stated in regard to the mining property, "I believe that the Groundhog property is going to show up to such an extent that it will be a surprise even to the men who are closely associated with the progress we have made there this fall. I am going outside for the purpose of attending to business in regard to the property and am going to bring back a large shipment of mining machinery which I hope to get in to the property this fall. The showing so far is very good, the new ore body recently cut through shows very rich, and although I brought in my crew from the property, whose work was hampered by a snow slide, I am sending more men in there and I am sure that they will tap the big ore body within ten days work. From the showing of the small vein we are sure that the larger one is there and that this is going to be one of the coming properties of Southeastern Alaska. I will return shortly and see to getting the winter trail in shape to take in the necessary machinery this winter."

## Hard Time Dance For Thanksgiving

As announced last week, the Wrangell Orchestra are forging ahead fast with their plans for that big dance on Thanksgiving. The original plans have been changed somewhat and the dance will be a good old fashioned Hard Time Dance, which is just the right kind for everyone to have a jolly good time. So prepare for the time of your life and get your oldest, raggiest and worst clothes laid out for the occasion. Good music is promised and everyone will have a good time. The admission will be, Ladies Free and Gentlemen one dollar. Remember the Date, Thursday evening, November 25th at the Rink.

## Senator Will Take Place Of Seattle

The big liner Senator, of the Pacific Coast Steamship Company, is scheduled to leave Seattle on the 20th of this month, next Saturday, taking the run of the City of Seattle. She will at Prince Rupert, on the way north and bring the freight discharged at that place by the ill-fated City of Seattle.

## Dr. Pigg Is Appointed Health Officer

Owing to the fact that there was a light case of chickenpox in a native cabin near the light plant, the city fathers held a meeting last Monday evening and appointed Dr. Pigg as Health Officer for Wrangell with full local powers in accordance with the Territorial laws. Dr. Pigg is looking after the cases quarantined in the house and according to him there is little danger of the disease spreading.

Government ships, accustomed to stop at Sitka and load up a cargo of deer meat, were brought up with a short jerk recently, when the steward of the survey ship Prometheus was arrested and the carcasses of thirty deer were confiscated.

## City Of Seattle Strikes Rock Last Friday

The City of Seattle, popular liner of the Pacific Coast Steamship Company, under the command of Capt. McGillivray, went ashore at Night Point, 40 miles south of Prince Rupert at 5:45 last Friday morning. She was floated on the next high tide and taken to Prince Rupert where she went on dry dock for examination.

Jack Bender, who was one of the passengers on the Seattle at the time of the accident, has the following about the wreck. "The night was very dark and it seems that the vessel got out of her course and the first thing we knew was a terrible jar and the boat stopped, I ran out side and found that we had struck a rock about thirty feet from the shore. There was no undue excitement and the life boats were lowered and the passengers placed in them as it was feared the Seattle would list at low tide. Shortly after getting in the life boats a gas boat came along and took the passengers aboard for Prince Rupert. The vessel struck with force that she split the rock on which she struck, in two parts. The Seattle was pulled off at the next high tide by the Princess May and went to Rupert under her own steam. We waited in Rupert for two days and then were taken aboard the Admiral Farragut."

According to one party aboard, he says that Rev. Corser was a passenger which is the cause of the bad luck, but as to the truth of that we cannot say.

## A. B's. Have Big Time At Smoker

Camp Wrangell, No. 28, Arctic Brotherhood, held a smoker for their lodge members and friends last night in the banquet room of the Redmen's Hall, the affair was one of the biggest successes that has been scored by the lodge in Wrangell. Directly after two new members had taken the trip over the mystic trail to the brotherhood of the order, the invited friends sat down to a bounteous repast at which all the good things to eat were in evidence. The affair lasted until the wee hours of the morning and the members and guests left with the feeling that they had attended one of the real affairs of the season. The local lodge is planning on having some kind of an entertainment at regular dates and the A. B.'s are noted for their hospitality will all be of the best.

Thomas Dalgity was master of ceremony and saw that everyone had a good time.

The steamer Wilmington, which brought a cargo of railroad material, including cars, boilers, etc., from the Panama canal for the government railroad at Anchorage, took a cargo of Alaska marble from Tokeen to San Francisco.

## Petersburg Has Good Times Says Steberg

K. L. Steberg, of Petersburg, is in town today on business. Mr. Steberg, agent for the Standard Oil Company and other interest in the Narrows City, is a live wire and is a booster for his home town. In speaking of Petersburg, Mr. Steberg has to say that the past summer has been the best that Petersburg has ever had and also that the coming winter looks good for his town. The new electric light system is expected to be in operation by the 15th of December and then that city for the first time in its history will discard its oil light for modern. In speaking of the fishing he states that herring is being caught in commercial quantities and that the halibut fleet is increasing, also that the Canadian Company will place the Prince John on the run calling at that place about the first of January for the first time and will inaugurate a new system of shipping the fresh fish direct to the eastern market from that place over the C. P. R. from Prince Rupert. Mr. Steberg predicts great things for his home town during the coming year.

A good show at the Wrangell Photoshow tonight.

Editing an newspaper is a pleasing business—if you can stand it.

If subscribers want to bawl out anybody—the editor's the goat.

If the town is lagging behind and things hum—it's because the town paper is on the bum.

If business is bad—it's because the editor wants to much money for his advertising space.

If business is good—advertising has'n't anything to do with it, but conditions are right.

If we print what pleases people—that is our duty and we deserve no credit.

If we print what is displeasing—we are a grouch and a crepe hanger and don't deserve the patronage of the public.

If we print the news as it actually is—people call us over the phone and tell us to stop their paper.

If we garble it—they tell us we are subsidized by the corporate interests.

Editing an newspaper is a pleasing business it is not!—Ex.

Miss Gates of San Francisco, advocates polygamy after the war, on the ground that such will be necessary in order to repopulate Europe. All the more reason for an early forcing of the Dardanelles in order to thoroughly investigate the Turkish system. There's nothing like being prepared. On to Constantinople.

## How To Kill The Town

Vote down all bonds and propositions to make public improvements.

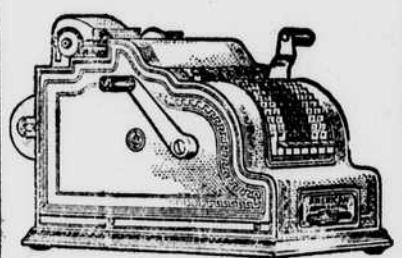

Drive out all contractors and their crews and minimize public expenditure.

Supply free camping grounds in the city so the hotels will all go broke.

Close all amusements on Sunday so that people will go elsewhere for entertainment.

Send away from town for printing, drygoods and clothes and spend your money on the mail order houses.

See to it that no corporation or public utility makes a cent of profit and keep all foreign capital out.

## Thinks That Nome Is In Arctic

The quaint conception obtaining on the outside concerning conditions and affairs in Alaska receive an amusing illustration received by Deputy Marshal Lee yesterday from the New York Times asking him to interview Stefanson and learn what his impressions were on returning to civilization and hearing of the great war. Mr. Lee was given a list of questions to put to the great explorer which are in every degree amusing as well as illustrative of the fact that even such great journals as the Times are but the most infinitesimal amount of knowledge concerning this great territory.—Nome Nugget.

Capt. Sid Barrington, of the Side Streams Navigation Company, says that the Upper Yukon and other rivers had a good season in both passengers and freight. Freight traffic has been particularly good on the side streams.
